Product designer with 10+ years of experience working at the intersection of design and code. I build accessible, scalable design systems and production-ready UI components, helping teams work more efficiently while keeping experiences cohesive. Experienced across web, desktop, and mobile, I specialise in design systems, accessibility, and user-centered design.

Experience

Staff Product Designer @ Pleo (Copenhagen, Denmark)

Jun 2022 – Jun 2026 (4 years)

Worked on the design systems team to strengthen the foundations of a system used across Pleo's web and mobile products.

- Led the introduction of semantic design tokens across design and code, defining the naming system, building Figma token libraries, and migrating components.
- Designed and implemented accessible UI foundations, including a WCAG 2.2-compliant focus indicator and improved form accessibility guidelines.
- Contributed directly to the React and TypeScript design system codebase by implementing components, fixing accessibility issues, and adding Storybook documentation.
- Maintained and evolved the design system's Figma libraries (tokens, components, and brand assets) used by 20+ designers and 60+ engineers.

Senior Product Designer @ Siteimprove (Copenhagen, Denmark)

Dec 2017 – May 2022 (4 years, 6 months)

Worked across product design and design systems for a complex enterprise platform focused on website governance and optimisation.

- Co-founded the design systems team and helped define its processes, responsibilities, and roadmap.
- Designed and implemented accessible UI components, authored UX guidelines, and built UI libraries in Sketch and Figma.
- Designed product features for a data-heavy enterprise web application, including dashboards and account settings.

Product Designer @ DSW (Schiedam, Netherlands)

Jul 2014 – Jun 2017 (3 years)

Designed digital experiences for a Dutch health insurer, working across UX research, product design, and front-end implementation.

- Designed features and flows for customer-facing websites and iOS and Android apps through wireframes and interactive prototypes.
- Implemented responsive website designs using HTML and CSS, translating design specifications into production front-end code.
- Conducted usability tests and performed a top task analysis to prioritise improvements to the customer experience.

UX Researcher @ Netmarketing (Rotterdam, Netherlands)

Oct 2013 – Feb 2014 (5 months)

Conducted usability studies at a UX research consultancy, translating research findings into actionable design recommendations.

- Planned and moderated usability studies, including participant recruitment, test scripts, facilitation, and reporting.
- Synthesised research findings into clear UX recommendations supported by wireframes and interaction concepts.
- Delivered projects for clients across various industries, such as banking, public transport, pension funds, and online marketplaces.

Experience

UX Designer @ Perceptive Software (Apeldoorn, Netherlands)

Oct 2012 – Sep 2013 (1 year)

Designed improvements for complex enterprise software used to manage documents and business processes.

- Translated research insights into wireframes and interaction concepts to guide product improvements.
- Conducted usability research including participant recruitment, test scripting, moderation, and analysis.
- Collaborated with product and engineering teams to improve usability in a complex enterprise interface.

UX Design Intern @ Perceptive Software (Apeldoorn, Netherlands)

Feb 2012 – Sep 2012 (8 months)

Conducted research and evaluation work for a complex enterprise application.

- Evaluated the product through contextual inquiries, stakeholder interviews, and a heuristic evaluation.
- Documented usability issues and user needs in a detailed research report.
- Proposed UX improvements supported by wireframes and design recommendations.

UX Research Intern @ Valsplat (Amsterdam, Netherlands)

Mar 2010 – Aug 2010 (6 months)

Supported UX research projects for major Dutch and international clients at a UX research consultancy.

- Conducted usability tests, including participant recruitment, test scripting, and moderation.
- Communicated research insights and design recommendations through reports and presentations.
- Contributed to projects for major clients including PayPal, Microsoft, the Dutch government, ING Bank, and KLM Royal Dutch Airlines.

Skills

Core

Design systems • Accessibility • Interaction design • UI design • Cross-functional collaboration

Tools

Figma • React • TypeScript • HTML • CSS • Git • Storybook • VS Code • Astro

Methods

Prototyping • Wireframing • Usability testing • User interviews • Design tokens

Education

Doctor of Engineering, User-System Interaction @ Eindhoven University of Technology

2010 – 2012

Master of Science, Applied Cognitive Psychology @ Leiden University

2008 – 2009

Master of Science, Clinical Neuropsychology @ Leiden University

2006 – 2007
